

As a resident in Denver, CO K-LOVE has had a very positive influence on my life. I used to listen to other radio station. After a while, I realized that most if not all were filled with songs that had no substance or songs that were degrading to people in general. The commentaries were full of idiotic chatter or negative point of views. I would find myself just turning off the radio and listening to a tape instead.

K-Love offers listeners an alternative music and commentary lifestyle. I enjoy the encouraging words and the music that is filled with faith. It is a station that I allow my kids to listen to without having to worry about the content of the songs or the commentaries.

I would not be happy if K-love had to be "shared" with another station. I like the fact that I can leave my radio dial on K-Love the entire time I am in the car and don't have to worry about the negative or disrespectful content that some the of the radio stations seem to carry.

K-Love carries content that promotes family togetherness & a basic respect for people. Not all radio stations carries this message. K-Love has impacted my life dramatically. I can not imagine not having K-Love in an other format. Very few radio and television stations care about today's real issues such as family and respect.
